38. Southern History in the Headlines

Presiding

Stephanie McCurry, Columbia University

In recent years southern history has been often in the headlines, but because our program is planned a year in advance, the SHA has had little opportunity to discuss such events in a formal setting--until now. Southern History in the Headlines is a forum for extemporaneous historical analysis of contemporary events relating to the history of the South. This years panelists, who will be chosen for their relevant expertise, will address such topics as Confederate memorials and monuments, the shootings in Orlando, and news items breaking during the conference.

Panelists will discuss the film, armed resistance to injustice in Mississippi, as well as Medgar Evers.*
